## U.S. Fire Arms Mfg. New Model 12/22

The New Model 12/22 from U.S. Fire Arms Mfg., a full-size, 12-shot .22 caliber revolver, features new lockwork to accommodate the 12-shot cylinder. This design includes changes to the revolver's internals and a new ratchet design. The New Model 12/22 has all-steel construction, traditional full-cocking action and loads two rounds at a time.
